Meeting Minutes:

At 6:00 P.M. Chris Schmiesing welcomed everyone to the meeting, and thanked them for being in attendance. Mr. Schmiesing introduced Jamie Greene, Kim Littleton, Aaron Domini, and Randy Gross and turned the meeting over to Jamie.

Jamie explained the purpose of the meeting and asked Randy to present the Fiscal Analysis information.

Kim Littleton followed with a presentation of the Community Choices material. In particular Kim highlighted the information gathered from the public meetings and explained how that information had been translated into the goals and land use principles of the plan. Kim also presented concept maps of the built environment, including schematics of building elevations and street sections, and presented a conceptual land use plan.

There were no comments on the plan goals, which had been previously adopted by the steering committee, planning commission, and the city commission, and the land use principles were well received by the group. The conceptual land use plan generated some questions and the general consensus of the steering committee was the land use plan in addition to the land use principles was too much information to be presented all at one time. The direction provided by the steering committee was to share the land use principles at the community choices event but not to present the conceptual land use plan until the steering committee had more of an opportunity to discuss the plan.

The meeting adjourned at approximately 8:50 P.M.
